

Supporting KS1 learners with Reading Hub

Learners 'at risk' may not be engaging with their reading as successfully as other learners.

Get a closer look

Review the learner's individual dashboard to help identify where the problem might be:

- How often are they reading?
- How long are they spending reading?
- How many eBooks have they read?
- Is there reading habit % low?

If these figures are low it could mean that learners are struggling or not engaging with the app at home.

Suggested interventions

Word reading

What difficult words are your learners searching?
Is there a particular phoneme/grapheme that keeps coming up?
Recap and review these in class.

Comprehension

Get students to choose a character from one of their books and ask them how they would respond to different situations (e.g. arguing with a friend, choosing a snack etc).

Independence

Allow your learners to explore and choose their next read from the list eBooks that are 'Popular in your school'.

Reading fluency

Review how long a learner is taking to read a page or in an average reading session and if the numbers are very high, perhaps suggest reading a different book.
