

Supporting KS2 Learners with Reading Hub

Learners 'at risk' may not be engaging with their reading as successfully as other learners.

Weekly reading rate	2/7
Avg reading duration	H:0 m:8 s:11
Difficult words searched	0
Books read	1
Reading habit	24 %

Review the learner's individual dashboard to help identify where the problem might be:

- How often are they reading?
- How long are they spending reading?
- How many eBooks have they read?
- Is there reading habit % low?

If these figures are low it could mean that learners are struggling or not engaging with the app at home.

Suggested Interventions

Word reading

Using their 'difficult words' ask learners to find definitions and use them in a sentence that's relevant to their own understanding.

Inference

When learners are reviewing a book, ask them to write a sentence about how an event in the story made them feel.

Independence

Review learners' book recommendations and get them to begin a book that's different to the type of genre/author they're used to.

Comprehension

Set a task for learners to write a comment about their understanding of a character's feelings or motives behind a particular behaviour.
